RFI regarding lockers

- The varsity lockers rooms on A0.1A demolition plan are NOT noted as being removed/replaced. This is 64 total lockers. If you look at that page the lockers that are being replaced are clearly noted. These same lockers are not identified with the locker legend on A1.1A. On A6.1 enlarged plans these lockers are shown but again are not identified with the legend notes like the others. I believe these rooms are on this page to show restroom accessories, not necessarily lockers. Please confirm. There will be no locker demolition or replacement scope of work in Women's Varsity Locker Rm A111 & Men's Varsity Locker Rm. A117.
- There are other lockers shown on A10.2A but they are not identified and there are no other details so I don't think these are in our scope. Please confirm. The Lockers shown on sheet A10.2A are not being replaced as part of our scope of work.
